V. OTHER SUPPLEMENTARY GUIDELINES

INTRODUCTION

Writing a Master's thesis is an important stage of your study at the OSCE Academy in Bishkek. The aim of this manual is to present you the Academy's requirements and rules on writing your MA thesis and guide you on formatting, style, and submission processes. All students are expected to follow this manual precisely. Failure to comply with it will incur penalties.

The MA thesis demonstrates the student's ability to conduct original research and to report the results in a formally correct way. The process of implementing the thesis project improves the student's research, analytical and writing skills. The result must be an independent work, testifying to the comprehensive understanding of the subject investigated, the application of appropriate research methods, and the ability to present in a clear and precise manner.

II. GENERAL RULES

A. Language

The working language of the OSCE Academy is English.

B. Length

The thesis is expected to be 18,000–25,000 words (excluding the prefatory pages, notes-bibliography or references, and appendices) for students of the MA in Politics and Security Programme, and 14,000-18,000 words (excluding the prefatory pages, notes-bibliography or references, and appendices) for students of the MA in Economic Governance Development Programme. If the thesis exceeds the specified maximum length, supervisors and examiners will not read further than the specified limit and shall therefore not take into account any work beyond the specified limit when grading the thesis. If a thesis is shorter than required, it will not be accepted for evaluation by the Academy.

C. Deadlines

Official deadline for the submission of a Master's thesis is the date when students submit an electronic version of their theses (please see further below). An electronic copy (in word format only) and a hard copy of the MA thesis must be submitted to your respective assistants: Jazgul Bolotkyzy, EGD Programme Assistant via j.bolotkyzy@osce-academy.net; and Nazira Abakirova, PS Programme Assistant via n.bakirova@osce-academy.net

D. Number of copies

Students must submit two (2) copies of their Master thesis: 1) electronic copy; and 2) a hard copy. The electronic copy must be in *word format only*. Hard copy must be bound and will not be accepted until students meet all the formatting and style requirements set by the Academy. All parts of the thesis, including the cover page should be printed on a white, Portrait layout, A4 size paper. The cover page should be printed on a good quality, non-textured, and thick paper.

E. Penalty

MA thesis submitted later than the specified deadline is subject for a penalty. Regardless of the number of delayed days, 5 points reduction from the final grade will be applied. Saturday & Sunday are included in the penalty period. After five days, a thesis is considered as failed. Where a student is aware in advance of special circumstances, which will prevent him/her from submitting assessed work timely, he/she may request in writing an extension of the due date from the OSCE Academy Director and a copy of a request, detailing the circumstances that have led to the delay, must be sent

to the Head of Department of Graduate Education. Such an extension, and the length of any extension granted, shall be at the discretion of the OSCE Academy Director who consults on each case with the Head of Department of Graduate Education. Where such an extension is granted, assessed work submitted within the extended period for submission will not attract a penalty. In no circumstances shall any special circumstances affecting late submission of assessed work be considered after marks have been finalized by the Examiners.

F. Plagiarism

Plagiarism is the act of copying or including in one's own work, without adequate acknowledgement, intentionally or *unintentionally*, the work of another, for one's own benefit. It is academically fraudulent and an offence against OSCE Academy rules. Plagiarism, at whatever stage of a student's course, whether discovered before or after graduation, will be investigated and dealt with appropriately by the Academy.

All work submitted for assessment by students is accepted on the understanding that it is the student's own effort without falsification of any kind. Students are expected to offer their own analysis and presentation of information gleaned from research, even when group exercises are carried out. In so far as students rely on sources, they should indicate what these are according to the appropriate convention in their discipline. The innocent misuse or citation of material without formal and proper acknowledgement can constitute plagiarism, even when there is no deliberate intent to cheat. Work may be plagiarized if it consists of a close paraphrase or unacknowledged summary of a source, as well as word-for-word transcription. In addition, students are required to acknowledge all help and other assistance that they have received. This should be done both in the formal list of acknowledgements in the thesis and at the appropriate places in the thesis. Examples of such help might include provision of material, assistance with statistics or data processing, and external collaborations. Any failure adequately to acknowledge or properly reference other sources in submitted work and to properly acknowledge help and assistance received will lead to *the total failure to complete a Master degree at the OSCE Academy in Bishkek*.

If an Examiner suspects that a thesis contains evidence of plagiarism, he or she will inform the Head of Department of Graduate Education. Evidence of the suspected plagiarism should be collected together by the Head of Department of Graduate Education and a report made to the State Examination Committee. On the basis of this report and in consultancy with both the Head of Department of Graduate Education and the Examiner, the State Examination Committee will decide whether the plagiarism is minor or significant. If the plagiarism is minor the Examiner will be advised to take the minor plagiarism into account in determining the academic quality of the work. If the plagiarism is significant, it will lead to the failure of the Master Thesis and, as a result, of the Master degree in Politics and Security or Economic Governance and Development. This decision will be taken by the OSCE Academy Director and the Head of Department of Graduate Education in co-operation with the State Examination Committee. The Master Thesis cannot be re-submitted and the decision will be final with no appeal allowed.

If plagiarism or cheating is found to have occurred in the work of a student after the graduation the OSCE Academy has the authority to reduce the classification of a degree conferred, or to revoke a degree and to require the graduate to return the degree scroll.

G. Grading

The lowest passing grade for MA thesis is C-. Each thesis is read by a supervisor and three independent reviewers, who provide written evaluation or comments. Reviewers also provide grades for each thesis and submit to the State Examination Committee, who will make final decision on grades taking into consideration: 1) student presentation of a thesis (thesis defense); 2) supervisor's comments, and 3) most significantly, reviewers' feedback and grade. A thesis that is evaluated below C- (and therefore failed) can be rewritten twice within the following two years after graduation. Anyone passing the MA thesis, but with a GPA less than 2.00, fails the programme.

H. Grade review

In case the assessment by the independent reviewers differ more than 2.0 of the grade points, the State Examination Committee appoints an additional independent reviewer to evaluate the thesis.

In case a student decides to make a grade review request, she/he shall apply the following procedure:

- the student shall consult with the Head of Department of Graduate Education and express his/her concerns about the final course grade.
- in case the grievance was not resolved through consultation, the student shall submit a written request for review of the contested grade to the Head of Department of Graduate Education. As the burden of proof rests on the student, the grade review request must include a detailed explanation of reasons for the grade review. The Head of Department of Graduate Education will immediately send a copy of the student's request to State Examination Committee and request a written reply within 5 working days;
- The members of the State Examination Committee shall agree a) on the acceptance of the grade review request; and b) on the procedure for the reassessment of the grade. The decision on the acceptance/procedure shall be taken unanimously by the Panel. If the State Examination Committee rejects the grade review request by the student, the initial assessment shall be valid. If the grade review request is accepted, the State Examination Committee shall agree unanimously on a grade review procedure. The decision of the State Examination Committee is final and will be reported in writing to the parties.

I. Thesis corrections

After the submission of electronic versions of the thesis, the Academic staff will check if the thesis submitted is in line with the Academy's formatting requirements. If any formatting corrections are needed, they will let you know before the hard copies are printed. However, it is the sole responsibility of the student to submit well formatted hard copies. *The Academy has the right to ask from a student to reprint the hard copy until it satisfies the formatting requirements.*
