

MASTER OF ARTS IN ECONOMIC GOVERNANCE AND DEVELOPMENT PROGRAMME

MA THESIS PROPOSAL WRITING GUIDE

The MA thesis will be a good opportunity for you to demonstrate your research and analytical skills, ideas, creativity and, in general, what you have learned during your studies at the Academy. Writing a good proposal is an absolutely necessary prerequisite for writing a good thesis. A thesis proposal should explain the research question and include a preliminary review of the relevant literature. It should propose a theoretical or applied interest, the methodology for addressing the question with specification of the resources. A thesis proposal will help you to find out if your research is doable and also, keep you focused while writing a thesis.

The selection of an acceptable topic of your thesis and developing a good proposal are key ingredients for the work towards writing a successful thesis. The main issue is to delimit the scope of the topic. It will be impossible to research properly in case a topic is too broad. But the too narrow topic may produce the risk of being insignificant. The topic should be selected from economic governance and development area.

Select your thesis supervisor according to your research interests. It should be a person who would be willing to devote his/her time to supervise your work and with whom you will be able to establish a good academic and working relationship (which is equally important in producing a successful thesis). It is very important to keep in touch with supervisor regularly, as he/she will guide the development of your dissertation.
