# Security Advisory (Annex I)

OSCE Academy in Bishkek  
1 A, Botanichesky pereulok, Bishkek, Kyrgyz Republic  
Tel: +996 (312)543200, 541200 Fax: +996 (312) 542313  
[www.osce-academy.net](http://www.osce-academy.net), [info@osce-academy.net](mailto:info@osce-academy.net)

Dear Colleague,

Welcome to Kyrgyzstan and to the OSCE Academy in Bishkek!

Please, take a minute and read the following safety measures to ensure the security of your stay in Bishkek.

- 1) **Robbery** is the most common crime in Bishkek and foreigners are the most likely targets. Do not give anybody your mobile to make a phone call, irrespective of gender!
- 2) **Pickpocketing** is also a common crime in Kyrgyzstan. It usually happens in public places and in public transportation (Minibuses, so-called “Marshrutka”, Buses, and Trolleybuses), department stores (at the ZUM, “Globus”) and local markets (Osh Bazar, Alamedin Bazar, Orto-Sai Bazar, Dordoi Bazar).
- 3) **Always carry copy of your passport and visa/registration** (where write all necessary emergency phones) in case you are stopped by the police and asked for your ID. If a police officer asks you to go with him/her to the police station, **immediately call for assistance the OSCE Academy Security on Duty 0770 43 36 59 or Mr. Mirlan Akhmetov, OSCE Academy Senior Security guard 0770 707957 or Ms. Indira Satarkulova, Deputy Director 0775 97 47 08**. You have right to ask Service ID (the so-called Udostoverenie) of the police officer and remember the name and department. Remain in an area with many people where you can draw public attention.
- 4) **Keep your passport and money in a safe place. Do not carry your passport with you unless needed.** Do not leave bags, notebooks, cameras and other valuable things in the vehicle.
- 5) **Be aware when crossing the roads!** Local drivers sometime do not let pedestrians pass first.
- 6) In the evening and night use a taxi and **DO NOT walk alone**. Phone numbers of some of the recommended city’s taxi: “**SMS Taxi**” phone: 1236 or 0312 465 633; “**Namba-Taxi (ask only for service “Comfort Reno-Logan” price: 70 + 15 KGS per km)**” phones: 0312 976 000; 0771 976 001; 0559 976 000; “**Express Taxi**”: 156; 154; 152; 474747; “**Manas Taxi**”: 0312 693000 (only to and from Airport “Manas”). The taxi driver provides the payment bill if asked.
- 7) In case of public disturbances, a natural disaster or any other situation that endangers your security and safety, please, call the OSCE Academy Security on Duty.  
If you have any medical problem or medical need, please call 151, 136, 1130 or 103/112 (Russian language only). English speakers please call Ms. Victoria Orazova, Alumni Affairs and Communications Coordinator. The London-Bishkek Medical Centre, (only for Endocrinologist, a gynaecologist, psychotherapist, ultrasound check – (0312) 891403 (interpreter available), or Medical Clinic “Medi” on 5/3 Suerkulova street (in front of School № 62); +996 (312) 595627, 595628, 136; [www.medi.kg](http://www.medi.kg).
- 8) Natural Disasters. According to the Ministry of Emergency Situations, Kyrgyzstan is located in a seismic active zone. Acquiring some knowledge and following simple precautions can help us to survive and stay safe when the earthquake hits.
- 9) **During an Earthquake:**  
Most important thing during the earthquake is to STAY CALM and NOT TO PANIC!  
  
Three basic steps (indoors):  
  
1 – **Drop** to the ground;  
  
2 – Take **cover** by getting under a solid – strong object (desk or table);

3 – **Hold on** to it until the shaking stops.

Protect your head, neck, and face. Stay under cover about to 60 seconds after the stop shaking and debris settles.

Do not try to run to another room, just to get under some solid object or if not possible then stand against an interior wall – a wall near the centre of the building. Stay away of exterior walls, windows, heavy furniture, and appliances! The kitchen, elevator, and stairs are dangerous places in particular. If you're in an office building, stay away from windows and outside walls. Arrange your work area for safety. Make sure that bookcases, large file cabinets or other items are not blocking your exit doors. Store heavy objects on low shelves! Store breakable objects in cabinets. Know your exit way to leave the building safely after an earthquake.

If you are outdoors, try to move to a clear area, avoid power lines, trees, buildings, and other hazards or anything else that could fall on you.

If you're driving a car, pull over to the side of the road, and stop a vehicle, use hand break. Never try to overpass other vehicles, or drive through the bridge, or be a next to the power lines, and other hazards. Stay inside the vehicle until the shaking is over.

According to the findings most of the injuries and deaths caused by earthquakes are more likely to be happening by falling or flying objects (TVs, lamps, glass, bookcases, etc.) than to die in a collapsed building. Therefore, **“Drop, Cover, and Hold On”** offers the best overall level of protection in most situations.

#### **After an Earthquake:**

Check yourself and other for injuries. Do not move injured people unless they are in danger. Expect aftershocks. Be ready to act without electricity or lights. Know how to move around your office / apartment / home area and how to exit in the dark. Be aware of objects that have shifted during the quake, use extreme caution while leaving building. Continually assess your surroundings and be on the lookout for falling debris and other hazards. Do not re-enter damaged buildings until an all-clear is given.

10) List of useful phone numbers: (Kyrgyz prefix is +996, Bishkek prefix is +312, Osh Prefix is +322, Batken prefix is +3622)
