You can apply for more than one mobility, but you need to submit a separate application for each.

DISCLAIMER: Erasmus+ mobility is not an obligatory part of studies at the OSCE Academy, it is an additional opportunity. The OSCE Academy does not provide any additional funding to cover expenses related to visa issuance or travel.

Please remember, applying for Erasmus+ mobility is voluntary and the selected candidates will have to organize and cover their mobility themselves (visa application, issuing tickets, registering with the host university, etc.) Before applying for mobility, please make sure to find out where you should apply for a National Visa (for 120 days) and that you will be able to cover related expenses on your own. The OSCE Academy provides visa support letters and some information support, but most of the preparations for mobility are done by students.

Students will be selected and nominated by the Academy for a 5-months (October-February) stay at host university.

IMPORTANT:

1. Selected students will have to complete internship before October.
2. Fall Semester lasts from October -till mid-February. Exams are completed by 15 February. Students will have to make sure to complete everything before the State exams and MA Thesis Defense at the Academy and return to Bishkek by **2 February 2027**. (if necessary negotiate with the Professors to take exams or submit papers in advance)
3. For PS and EGD students ECTS received at Host University will be accepted by the Academy as bonus credits and will not impact your overall GPA, because at the moment of mobility all the required credits are already received.

Funding via Erasmus+ is provided by host universities. Monthly stipend is **800 EUR per months**. Travel costs (lumpsum) from **530-850 EUR** depending on the destination. **During the mobility, regular Academy's stipend is not paid as it is considered to be cross funding by donors.**
